19. ABSTRACT (Continue on reverse if necessary and identify by block number) — Army, Navy, Air Force, and Marine Corps personnel assigned in Hawaii and living in civilian housing were surveyed for their opinions and attitudes about their housing and military support services. Topics covered included: Housing satisfaction, preference and perceived effects on job performance and career intentions, civilian housing characteristics and expenses, home owner concerns, and general problems. Results show that 73 percent of the service members were generally satisfied with their present housing. Problems with initial housing costs, living expenses, and spouse employment were most prevalent among young enlisted families. The need for more and better information (in advance and on-site) from the housing offices cut across all pay grades. Short of being housed on post or base, young families need additional and proactive housing services.

## INTRODUCTION

This supplement to the Report of Civilian Housing Residents Survey contains statistical tables that summarize the survey data. Response frequencies of the total survey sample for all items on the questionnaire are presented first. Cross-tabulations of all questions with Service, pay grade group, and renter/owner status of the respondents follow the frequency tables.

## FREQUENCY TABLES

A frequency table shows for a particular question the actual number of respondents (labelled "FREQUENCY") who picked each of the answers listed under "VALUE LABEL." Next come three percentages based on that response frequency. "PERCENT" shows the percentage computed by dividing the frequency by the total of all respondents, including those who didn't answer the question or who gave an answer outside the range of valid answers. "VALID PERCENT" shows the percentage computed by dividing the frequency by the total of valid answers ("VALID CASES") to the question. Finally, "CUM PERCENT" shows the cumulative percentage of the valid answers represented by that response frequency plus those above it.

For example, see the frequency table for Question 1, Service. Navy respondents numbered 1623, which represents 34.2 percent of the 4746 (4728 valid + 18 missing) total respondents and 34.3 percent of the 4728 valid responses. The CUM PERCENT column shows the Navy responses when combined with the Army responses listed above them represent 57.4 percent of the total valid response to the question.

Q1: SERVICE

VALUE LABEL	VALUE	FREQUENCY	PERCENT	VALID PERCENT	CUM PERCENT
ARMY	1	1091	23.0	23.1	23.1
NAVY	2	1623	34.2	34.3	57.4

## CROSS-TABULATION TABLES

A cross-tabulation table makes it easy to compare the answers of different types of respondents (e.g., different Services or pay grade groups.) Each table shows response frequencies together with several kinds of percentages. The Q12: RATE OF HOUSING ALLOWANCE BY Q1: SERVICE table shown below will be used to explain the table format and contents.

Q12: RATE OF HOUSING ALLOWANCE BY Q1: SERVICE

	COUNT	I									
ROW	PCT	I	ARMY	NAVY	AIR	MARINES	ROW				
COL	PCT	I			FORCE		TOTAL				
TOT	PCT	I	I	I	I	I	I				
+-----+-----+-----+-----+-----+											
DOES NOT APPLY		I	44	I	77	I	52	I	26	I	199
		I	22.1	I	38.7	I	26.1	I	13.1	I	4.2
		I	4.1	I	4.8	I	3.9	I	3.8	I	
		I	.9	I	1.6	I	1.1	I	.6	I	
+-----+-----+-----+-----+-----+											
WITH DEP RATE		I	945	I	1402	I	822	I	596	I	3765
		I	25.1	I	37.2	I	21.8	I	15.8	I	80.0
		I	87.0	I	87.0	I	61.7	I	88.2	I	
		I	20.1	I	29.8	I	17.5	I	12.7	I	
+-----+-----+-----+-----+-----+											
WITHOUT DEP RATE		I	97	I	133	I	459	I	54	I	743
		I	13.1	I	17.9	I	61.8	I	7.3	I	15.8
		I	8.9	I	8.3	I	34.4	I	8.0	I	
		I	2.1	I	2.8	I	9.8	I	1.1	I	
+-----+-----+-----+-----+-----+											
COLUMN			1086		1612		1333		676		4707
TOTAL			23.1		34.2		28.3		14.4		100.0
NUMBER OF MISSING OBSERVATIONS =					39						

Row labels are printed down the left side of the table ("DOES NOT APPLY," "WITH DEP RATE," and "WITHOUT DEP RATE"), column labels across the top (the four Services). The last column on the right contains the row totals, which are the sums of the frequencies for each row, together with the percentages of the total responses those sums represent. In our example, 199 people answered "DOES NOT APPLY"; this represents 4.2 percent of the 4707 grand total responses shown in the bottom right corner. Similarly, the column totals printed at the bottom show the sums of the frequencies for each column and their corresponding percentages. Note that any respondent who is missing an answer for either of the two cross-tabulation questions is excluded from the table and is counted in the "MISSING OBSERVATION" number at the bottom.

Within each cell in the table, the first number is the cell frequency. In the example, 44 Army people answered "Does not apply." The next number is the row percentage: the 44 Army responses account for 22.1% of the "Does not apply" answers. Then comes the column percentage, here showing that the 44 are 4.1 percent of the Army answers. The last number is the total percentage, which indicates the 44 is .9 percent of the table total of 4707 answers. Note that the short titles printed in the upper left corner of the table serve as a quick reminder of the cell contents.
